## EXPERIENCE

### Lawcadia, Queensland, AU — Full Stack Developer - Ongoing

5 May 2022 - Ongoing

At Lawcadia, I create and optimize user-friendly, responsive web applications using PHP, JavaScript, CSS, and HTML5. I meticulously design and implement solutions tailored to meet very specific requirements, ensuring seamless integration and functionality to deliver a robust digital experience for our clients in the legal industry.

### Alwashem Inc., Riyadh,KSA — Full Stack Developer - 2 yr

1 April 2020 - Sept 27 2021

Delivering high impact results to clients, engaging every step of the way to provide an affirmative experience. Mostly deals with Saas(Software as a Service) for multiple client requirements. Building web app, mobile app, and API.

### Soumik Dasgupta, India — Full Stack Developer - 3 yrs

1 Dec 2017 – 18 Nov 2019

Advancement with different activities dependent on customer's needs. Practices on an Agile methodology which we use slack for creating a task list. Building API's endpoints utilizing unadulterated OOP PHP. Databases engineering and organization.

### IT Solutions Agency(NDA), PH — Web Developer - 2 yrs

24 Jan 2014 – 6 Nov 2017

Work on various clients. Dealing deadlines. Most of the work was on PHP (framework or OOP PHP ). Making development for the highest level from the interaction. Like building responsiveness queue's builder from LARAVEL and CI. Make out of the box form from bootstrap and form builder etc.
